

# JAPS SURRENDER CEREMONY DUE TONIGHT

## Endless Chain Of Horrors For Prisoners

By VERN HAUGLAND

OFUNA PRISON CAMP, near Yokohama, Sept. 1.—Ninety-five Americans and eight English prisoners, liberated from the filth of a hidden concentration camp, today related the war's most gruesome tales of Japanese brutality.

They saw one man beaten to death and seven die of malnutrition. Some were spit on in the streets on forced marches through irate crowds.

Many were compelled to wear metal bits in their mouths for 14 hours at a time.

Others were left with their hands tied behind them for 24 hours. A 21-year-old pilot, Enns, Fred Turnbull, of Highland Park, Mich., tortured after his carrier plane was shot down over Formosa, said: "I tried to die and made peace with my God."

"My captors tied my hands behind me, made me lie down and covered me with my parachute," the youthful Michigan pilot said. "I heard two shots."

### Bullets Removed Without Anaesthetic

Already wounded when shot down, he was too numb to feel a bullet that entered his arm but felt one that pierced his chest.

A Japanese made a practice swing at Turnbull's neck with a sword after he had pulled the prisoner's collar down and an angered Formosan, giving him first aid, hit him in the back with a bayonet for not moving fast enough.

"At a hospital close to an airfield, shrapnel and bullets were removed without an anesthetic," Turnbull said.

Eight survivors of a 12-man crew on a privateer plane were given the "bit treatment" after their ship had been shot down south of Tokyo, Aug. 11.

"The bits were used to keep us from talking," said Naval Lt. John B. Rainey of Houston, Tex.

"Every half-hour they came in to test and, if anyone complained, they made the thing tighter," Rainey added.

### Beaten Until Numb All Over

Rainey still wears a bump on his head where a guard "tapped me

with his rifle butt every time he came to the place—just to amuse himself and the villagers."

Evidence of the Japanese brutality shows in facial sores on the men.

After five days of beating by Formosans, Lt. Charles Bauchalt, a 23-year-old Pennsylvanian forced to bail from a torpedo bomber, couldn't see.

"They beat me until I was numb all over," he said. "Here at Ofuna I was in solitary confinement five and a half months."

"They beat me up every day, sometimes at night." Lt. Laurel Eoline, 26, Sioux City, Iowa, a member of the crew of a superfortress disabled over Tokyo May 23, related that after he had landed in a field and surrendered, civilians "beat the living tar out of me with fists, umbrellas and clubs."

Enns, John R. Bertrand, pilot of a B-24 over Formosa, said six survivors of the crew were marched through a town while people threw stones at them and clubbed them.

"They stripped us and beat us with a big wet rope until the blood oozed," Bertrand said.

### Hands Tied, Strung Up

"They handcuffed my hands behind my back, stood me on a chair, tied a ceiling rope to the handcuffs and kicked me off."

"There was a terrific pain like my arms had been torn out of their sockets."

Bertrand couldn't move his arms for months and still hasn't the use of one arm.

The wet rope treatment was administered daily and the fliers' captors made them stand naked in the cold weather, the Liberator pilot declared, adding "I froze my feet walking on icy floors."

When Bertrand and his comrades first entered the Ofuna camp the guards "beat hell out of me for not knowing the rules."

February and March were the grimmest months, a period in which "we got our worst beatings, with baseball bats."

Movement of prisoners toward home was announced today at Okinawa where the first group arrived.

## LABOR DAY HOLIDAY MARKED BY ACCIDENTS AND STRIKES

(By Associated Press)

At least four Ohioans have been killed in accidents, during the first day of the Labor day holiday week-end.

As gasoline-rich motorists swarmed back to the highways, the Scioto county coroner reported three deaths in the Port-mouth area.

## LAUSCHE, IN COUNTY, PLANS LEGISLATION

### Governor Speaker At V-J Ceremony In Pottery City Last Night

EAST LIVERPOOL, Sept. 1.—Gov. Frank J. Lausche, here for a V-J day celebration last night, said he would call a special session of the legislature before January, 1947, to consider legislation relative to three issues.

They are destruction through strip mining practices, greater benefits for returning servicemen and urban redevelopment.

Lausche said the special session scheduled for Sept. 5 would be limited to the unemployment compensation measure.

The governor said he would call a special session before 1947 to renew his "fight to correct the destruction caused by strip mining practices." He added he also would seek legislation for additional aid for veterans.

Gov. Lausche said the state does not, under existing laws, have the power to eliminate slums but such enabling legislation would be sought under his urban redevelopment proposals.

Earlier the governor told 20,000 persons attending the celebration the American people have a peace-time responsibility to guard against the "less than one per cent of industry and labor who would make this a Communist or Fascist nation."

Later he addressed some 5,000 persons at Mahoning county's 99th annual fair near Youngstown.

## Wins Bronze Star

NAVY NURSE LT. Mary Harrington

Nelson of Elk Point, South Dakota, is one of eleven nurses who will receive the Bronze Star medal in Manila. She served with a hospital prior to Pearl Harbor day, and helped the wounded during the early part of the Philippines campaign. Captured by the Japs when Manila fell, she had spent more than 37 months as a prisoner of the Japs when freed. (International)

## TRUMAN ON SUNDAY NIGHT AIR PROGRAM

WASHINGTON, Sept. 1.—The President's brief address on the Sunday radio program will begin at 9:15 and all networks are expected to carry at least part of the program.

Presidential Secretary Charles G. Ross said he did not know whether the broadcast of the surrender ceremony aboard the Missouri will be a delayed and recorded affair or whether it will be simultaneous with the actual signing.

The MacArthur message did not make this clear. All it said was that the ceremony would go on the air at 10:30 a. m. "on the second," Sept. 2 (Tokyo time), in Tokyo bay (9:30 p. m. tonight in Washington).

It was not known this morning how long the ceremony will last. The President will be standing by in the broadcast room of the White House listening in on the surrender-signing ceremony and waiting for the signal for him to speak.

## The World Today . . .

### Far From Peace

By DEWITT MACKENZIE, AP Foreign Affairs Analyst

AS GEN. MacArthur says, "It has been a long, hard road but this looks like the pay-off."

That is, it's the military pay-off marking Allied victory at arms in the closing phase of the World War. The supreme commander didn't say this is the end of the road. It's very far from the end, for the highway leading to real peace winds far away beyond the horizon. We must make the Japs not only peaceable, but peace-minded.

"The Japs," MacArthur states, "seem to be offering us complete good faith, and there is every hope for success in the capitulation and that it will continue without friction and without unnecessary bloodshed."

And Adm. Nimitz, also observing the peacefulness of the landings in Tokyo bay, remarks: "I think it was because of the emperor." The emperor of course acts on the advice of his government. Why are he and his ministers "offering us complete good faith" without meaning to be cynical or uncharitable, I think it's because Japan has been beaten to a pulp. I don't believe you can change the mental outlook of a nation overnight, and for that reason the war-minded Japs aren't being good because they want to be good, but because, as the Englishman says, they jolly well have to.

The Japanese remain the same primitive people who believe that might is right, and on that basis admit that the Allies are right. When you read the stories of brutality and torture coming out of the prison camps where our men have been held, you realize that the leopard hasn't changed his spots. The Jap is still the creature who is equally ready to string his prisoners up by the neck and then beat them, or to stick a knife into his own bowels and commit hara-kiri.

However, that's the dark side of the picture, for while the Japs haven't yet changed his nature, we know that human nature is susceptible to change. Hitler demonstrated that by turning a considerable portion of the German population into gangsters in a few years of intensive propaganda. If he had been a man in-

## SNYDER ADDS ENDORSEMENT TO JOB BILL

### Director Says Mechanism Is Needed To Maintain A Stable Economy

(By Associated Press)

WASHINGTON, Sept. 1.—Reconversion Boss John W. Snyder said today the nation needs a mechanism to maintain a stable economy just as it has subscribed to one to keep the peace.

Endorsing the "full employment" bill, Snyder told the senate banking committee the legislation won't "produce as much as a single job" in itself but does provide a method for mobilizing the country's resources so everyone can find work.

"In the past," he said, "we have had no machinery by which to organize in a systematic way for the prevention of depressions or of wars. We need such machinery."

Snyder, director of war mobilization and reconversion, said the bill neither implies interference with decision of private enterprise nor puts the government into business. It enables the government to act he said, so as to "keep the free economic system running somewhere near full production."

### No Regmentation

Primarily the bill establishes full employment, the explicit policy of the United States, with congress having the final decision on programs recommended by the President, Snyder declared.

"That," he said, "is the best possible assurance the full employment bill will not mean regmentation."

Snyder was among the last of the witnesses as the senate committee's hearings neared an end.

Senator Wagner (D-N.Y.), chairman of the banking committee and an author of the bill, said their

## BEN C. JOHNSON, 77, DIES EARLY TODAY

Dr. Benjamin C. Johnson, 77, a retired veterinary, died at 9:30 a. m. today at Salem City hospital following complications of a week's illness. He was taken to the hospital Tuesday.

Born in Butler township March 11, 1868, he was the son of Charles and Eliza Johnson and had spent his entire life in this vicinity. His wife, Anna, died in November, 1944.

He was a member of the First Friends church and the Elks lodge. Surviving are a daughter, Mrs. Malvern Walton of Salem, a son, Carl Johnson of Ashland, two grandchildren, three great grandchildren, and a sister, Mrs. Florence Peppel of Salem.

Funeral service will be held at the Stark Memorial at 2 p. m. Tuesday in charge of Dr. Raymond D. Walter, pastor of the Presbyterian church. Burial will be in Grandview cemetery.

Friends may call at the Memorial home Monday evening.

## SINGLE POLIO CASE IN COUNTY, REPORT

LISBON, Sept. 1.—Dr. Seward B. Harris, county health supervisor, said today only one case of polio has been reported in the territory over which he has supervision, which covers all townships of Columbiana county, but does not include the corporations.

The one case, in Knox township, was that of a six-year-old boy. He was admitted to Akron Children's hospital for treatment on Aug. 20.

## Forgotten Man of Labor Day To Be Honored

CEDARVILLE, O., Sept. 1.—The late Sen. James Henderson Kyle of South Dakota, termed by congressional colleagues as "the forgotten man" of Labor Day, will be honored at Labor Day ceremonies here Monday.

Senator Kyle, a native of Cedarville, sponsored the Labor Day bill in 1894, when he was chairman of the U. S. Senate committee on education and labor, the Congressional Record disclosed.

Gov. Frank J. Lausche will plant a tree on the Cedarville college campus at the ceremonies honoring Kyle.

## Surgeon Dies

Dr. James M. McGeorge

## DEATH ENDS LONG CAREER

### Dr. James M. McGeorge, 71, Long Hospital Staff Chief, Dies Today

Dr. James McClymens McGeorge, 71, formerly chief of staff at Salem City hospital for 14 years and one of the oldest doctors in Salem in point of years in practice, died at 8:30 a. m. today at Salem City hospital following an illness of three years.

Dr. McGeorge, who was also chief surgeon at the hospital for 14 years, had been treated in the hospital for the past two years. Illness forced him to give up his practice three years ago.

A practicing physician here for 35 years, he was a graduate of the College of Physicians and Surgeons in Cleveland, an institution which later became Western Reserve University. He was a life member in the American College of Surgeons and served in the Medical corps during World War I.

A Presbyterian, he was also a member of the American Legion.

The son of Robert and Alice McGeorge, he was born near Darlington, Pa., July 11, 1874. He came to Salem in 1910 following his internship at Crile hospital in Cleveland and the Massillon State hospital in Massillon.

Surviving are his wife, Beatrice L., a sister, Mrs. Harvey Wiley of New Kensington, Pa., and three step-children, Mrs. Howard Braun and Mrs. F. C. Masten, both of Pittsburgh, and John R. Bell of St. Louis.

Funeral service will be held at the Stark Memorial at 2 p. m. Tuesday in charge of Dr. Raymond D. Walter, pastor of the Presbyterian church. Burial will be in Grandview cemetery.

Friends may call at the Memorial home Monday evening.

## LEW MUMAW'S BODY IS FOUND IN LAKE

CLEVELAND, Sept. 1.—A body identified by police and newspaper photographers as that of Lew Mumaw, 39, former traveling secretary for the Cleveland Baseball club, was found today in Lake Erie, a short distance from Mumaw's home.

Mumaw, manager of the Arena since July 1, had not been seen since Thursday night, his wife, Betty, told police.

August came to a close with a heat wave and severe drought. Pastures are burned and stock is being fed winter rations—unusual for this time of year. Weather Observer L. H. Copeland of Millport reminds us in his monthly report.

Corn and potato crops have been badly damaged by the drought and it is too late now for rain to be of any benefit.

Farmers are unable to plow ground for wheat planting, which will soon be necessary. Two inches of steady rain is the only remedy, Copeland says, to replenish soil moisture.

June, July and August rainfall totaled only 6.84 inches, while the normal for that period is 11.9 inches.

August had 75 per cent sunshine, with a wide variation in temperature between day and night. The average temperature of 69.1 was slightly above the 52-year average. A minimum temperature of 37 on the 27th had climbed to a maximum of 94 on the 30th.

Precipitation of 1.04 inches compares with the normal of 3.43 inches. Rain fell on only five days.

There were 18 clear days, 10 were partly cloudy and three cloudy.

## NIPS ATTEMPT TO POSTPONE IGNOMINY, PLANS GO AHEAD; EXACT TIME STILL UNKNOWN

WASHINGTON, Sept. 1.—The White House announced today that the Japanese surrender ceremonies on the battleship Missouri in Tokyo bay will go on the air at 9:30 p. m., Eastern War Time, tonight.

Gen. Douglas MacArthur, supreme Allied commander in Japan, notified the White House to this effect.

From Washington, President Truman will broadcast a speech of about eight or nine minutes during the ceremony, after which the broadcast will be switched back to the Missouri for brief addresses by Gen. MacArthur and Adm. Chester W. Nimitz, Pacific fleet commander.

By The Associated Press

YOKOHAMA, Sept. 1.—American troops extended their grip today along both sides of Tokyo bay, the stage on which will be played out tomorrow the greatest military pageant of the century—the final and formal surrender of the Japanese empire.

Last of the actors to take their places were the Eighth Army men of Lt. Gen. Robert L. Eichelberger, scheduled to begin their mass landings in the bay sector by nightfall tonight. (A radio report said the landings already had begun.)

As a backdrop there was the black horror endured by prisoners of war, who poured from their stockades, of death and degradation with accounts of the wanton cruelties inflicted upon them.

Now, as the gaunt Lt. Gen. Jonathan Wainwright remarked, "The shoe was on the other foot." He and his staff who survived the forced surrender of the Philippines and the evil years behind enemy wire arrived to witness the Japanese surrender signatures tomorrow (Saturday night, U. S. time) aboard the battleship Missouri.

Exact time of the ceremony was not disclosed. (But President Truman expected to address the United States between 10 and 11 p. m. Eastern War Time Saturday, which would be 11 a. m. to noon Sunday, Japan time.)

Gen. MacArthur, supreme Allied commander, warmly greeted Gen. Wainwright, in whose command he left the losing battle of Bataan in March, 1942.

Wainwright broadcast to the people of the United States, expressing his gratitude "for their generous understanding of my dire misfortune" at Corregidor.

Attempt To Postpone

Japanese imperial headquarters attempted to postpone the national ignominy by asking MacArthur today for further conferences on surrender terms, but it was declared at this headquarters the Missouri ceremony would proceed as scheduled.

On hand were the representatives of Britain, Australia, New Zealand, France, the Netherlands and Russia.

Throughout the Pacific, the Japanese were surrendering or arranging to surrender war forces peaceably. The only untoward incident reported was the attempted escape of three Japanese suicide boats from Hong Kong, where British aircraft promptly sank one, beached another and forced the third back to port.

Surrender of Hong Kong was to be organized today at conferences between British Rear Adm. C. H. J. Harcourt and the Japanese commander.

Philippine Surrender

In the Philippines, the one time "Tiger of Malaya," Lt. Gen. Tomoyuki Yamashita, agreed to go to Baguio tomorrow and sign surrender articles Monday for his Philippine army.

At Singapore, which Yamashita conquered in 1942, the Japanese commander acknowledged Adm. Lord Louis Mountbatten's orders to have the government house "ready for occupancy by Sept. 5."

The surrender of 86,000 Japanese in the Solomons, New Guinea and New Britain was to be received by Australian Lt. Gen. V. A. H. Sturdee aboard the aircraft carrier Glory at Rabaul.

The 20,500-man garrison of the Bonin islands was to surrender Monday.

The East Indies, last of Japan's major conquests, apparently would be the last to be relinquished. Dutch officials spoke of weeks before the occupation of those islands would be settled.

Defer Tokyo Occupation

The island fortress of Truk was scheduled to surrender after surrender papers are signed at Tokyo. Marcus island already had surrendered its 2,455 men to the U. S. Destroyer Bagley.

The Japanese at outlying bases sent reports their troops suffered from disease and hunger, and the home government was planning to tell the people the death toll from American air raids on Japan itself was nearly 450,000—nearly double the previously announced figures.

Premier Prince Higashi-Kuni promised a public explanation of "the collapse of Japan's fighting spirit."

For unexplained reasons, the American occupation of Tokyo still was deferred.

## Teamwork Day

In the United States, Labor Day belongs to all the people who labor. It doesn't matter what credentials they carry in their pockets, or where they live, or who their mothers and fathers happened to be.

The boss in the front office giving the orders may have been one of the employees in the shop when he started to the top the hard way. Or the fellow at the next bench may be the owner's son, learning how to work with his hands and brain.

It isn't always that way—it's not always ideal—but nothing ever is. The big thing is that in America, so far, economic classes haven't been cut up into divisions, fenced in and made static. It's still the rule of thumb in this country that families go from shirt sleeves to shirt sleeves in generation; or, in reverse, that they go from money in the bank to money in the bank in about the same length of time.

Having just finished a war which was won by the greatest project in industrial and agricultural production ever tackled by any country—a war in which the American people pulled together to greater effect and higher purpose than ever before—we are competent to tell other countries what gives American labor the world's largest amount of know-how and get-done.

It is the tradition of teamwork in the American way of doing things. It is the arrangement that keeps the man with the plans in touch with the men who have the hands to carry out the plans. It is the conviction that there is nothing American managers and workers cannot do if they want to do it. War production has been a sensational demonstration of the potentialities of teamwork whenever they are released.

Labor Day in 1945 is fittingly the first holiday after the end of the war. Victory was won by millions of Americans working together and with their allies for a common cause. Peace can be won the same way.

## The Farm Outlook

There has been no rush of returning veterans to go on the farms, either as operators or as hired workers and this, in the long run, probably reflects good judgment. Ohio State University reports that only 85 veterans have applied at its emergency labor office for farm jobs since Jan. 1.

The chance of establishing new contracts in agriculture are not promising for the amateur. Youth who left farms to go into service will go back and there will be a place for them but there will not be room for many more.

The farmers did a rather good job in feeding the country during the war in spite of record demands on the one hand and shortage of help and machinery on the other. With young farmers coming out of uniform and more and better machines available production by the present operators should be adequate next season.

Rural land prices have gone up 57 per cent during the war and are still rising. Successful modern farming requires a substantial investment in tools, stock and machinery. Already dairymen are worried because storage stocks of butter are 15,500,000 pounds above normal and cheese stocks 8,750 pounds above average in the face of decreased demands from the armed services.

The farmer did a great job in building up production all along the line. He showed he is a specialist who knows his business and can handle it but he also showed that it is a business which the man without experience and substantial capital may well avoid in picking his postwar career.

## Freedom In the East

End of the war finds most of the orient stirred by the light of freedom which shines so brightly from the Philippine Islands. Never in the history of man has there been a more happy chapter in the relationship of a great nation with the people under its control.

History is in the making and it is too early to write the ending of the chapter. With the close of hostilities India's claim for independence will be revived, Korea is demanding the freedom promised her, Manchuria is restless after long experience as a puppet state of the Japanese and the peoples of colonial possessions in the Pacific are examining the ties which bind them to governments in distant lands.

Unfortunately, the Philippines are a model toward which others might strive with little chance of attainment. The United States needs no colonies and it had few ties of this kind. In consequence it could spend almost unlimited money and effort in preparing the Philippines for freedom. Nations with more territorial possessions and less resources of wealth cannot build this costly foundation for freedom. If they cut their colonies loose, these unprepared lands will be left to their own resources which are inadequate in most cases.

Thus the colonial problem, always troublesome, is further complicated by the fact that the great, rich and kind-hearted United States has built a model so fine that even the best of intentions can hardly produce a duplicate or even a reasonably close fac simile.

## Biddle, Perry and Halsey

Admiral Halsey's triumphal entry into Tokyo Bay at the head of a superior naval force is the third in a significant succession of visits from the United States admirals.

In 1846, Commodore Biddle paid a call, in the hope of making a commercial treaty with the Japanese. He was roughly handled and withdrew, having

been instructed to do nothing which would excite hostile feeling.

In 1853, the United States was ready to pay another visit. This time Admiral Perry was the official in charge. Again, the purpose was to persuade the Japanese to make a commercial agreement with the United States. Washington in its wisdom had decided to shatter Japan's isolation at any expense.

The result is history. The Japanese, convinced that they lacked the means of resisting the kind of foreign power that had been demonstrated in the form of warships, did an about-face. They began to build their own warships. Their young men went abroad to learn western methods, chiefly the methods of modern warfare and power politics.

Through commercial agreements, Japan mechanized itself and became a competitor in the industrial age. In all ways, the Japanese studied the manners and methods of the west and adapted them to their own designs. Within 50 years of the shattering of their isolation, they were ready to fight their first war, against Russia. They already had fought China. In World War I, they were invited to join the western Allies. In World War II, they were strong enough, they believed, to conspire with Germany for the mastery of the world.

Japan has learned a tremendous lesson, but so has the United States. More than any other nation, Japan is the result of American enterprise. We have been its friend, its best customer and its worst enemy. We are now its master as the result of victory in war. The next move is up to the United States—but 99 years after the first move, in 1846, it is evident that the next move always has been up to the United States. Perhaps this time we shall be blessed with the wisdom that has been lacking so far.

## The Stars Say

For Sunday, September 2

SUNDAY's horoscope shows the probability of a concentration of the energies, forces and faculties, in a determined effort to break up some static or crystallized conditions or the wiping out of certain onerous or irksome responsibilities or obligations. This may take exceptional talents, ingenuity, skill, or a rather irregular way of accomplishing the desires.

Those whose birthday it is may have a fair opportunity for attaining some rather pressing objectives in the way of meeting obligations or the performance of an urgent duty. This must be undertaken with vigor, determination, sound purpose and by use of combined energies, talents and skills, physical and mental. All of these forces and faculties are under encouraging stimuli.

A child born on this day will have energy, determination, skill and ingenuity.

For Monday, September 3

Monday's astrological forecast is for a day in which all affairs are stepped up to dramatic heights and definite purpose under unusually exciting and enjoyable tempo. Many issues are to be settled by aggressive, persistent and skillful maneuvering, in the home, love affairs, business and finances. All resources and assets, influences and talents should be concentrated on grasping opportunities for new, constructive and fully exhilarating culminations.

Those whose birthday it is are on the eve of a year of thrilling and exciting opportunities for accomplishing definite and well organized plans and objectives, in which labor, finance, ambitions and progress receive splendid impetus. Possibly in the long run the chief desire is to promote domestic, social, romantic adventure, in which dramatic heights and lasting happiness are assured.

A child born on this day will be energetic, aggressive, original and ambitious. It should enjoy a constructive and happy life, with adventure and romance.

## GUARDING YOUR HEALTH

Skin Ills Seen In Pregnancy

BY HERMAN N. BUNDESEN, M.D.

PREGNANCY or the childbearing time, has a definite effect on the entire body. The activity of a number of the glands in the body is speeded up. The demands of pregnancy, however, may lead to various deficiencies, such as lessening of the coloring in the blood, or lack of vitamins unless special care is taken. Pregnancy may be a contributing cause for certain skin conditions.

Early during the child bearing time there may be some changes in the skin coloring. One of these conditions is known as chloasma in which there is a darkening of the color of the skin on the face and neck. These color changes tend to increase as pregnancy progresses, and disappear shortly after the birth of the baby.

## Skin Rash

There is a serious skin disorder known as impetigo herpetiformis which occurs almost entirely in pregnancy. In this disorder there is a skin rash which covers almost the entire skin. The rash is made up of from pinhead to larger sized blisters or pus-containing swellings.

WITH MARINE LANDING FORCE IN TOKYO BAY — The middle aged marine sergeant stood on the deck rail alone, looking toward the western horizon. A rain squall had just passed and scores of American ships dotted the laboring seas.

Still invisible beyond the horizon was the journey's end—Japan.

"I wish my boys were with me," said the sergeant, 46-year-old Edmond Rush, former construction worker in Washington, Pa.

Rush, a small, silent man with a brown mustache and a deeply tanned and wrinkled face, has six children. Three enlisted in the Marines but one was killed and the other two wounded in action.

So the father was carrying the family banner to Japan alone for his three sons who could not be there.

All four Marines—father and three sons—were expert riflemen. During a four year hitch in the Marines from 1913-1923, Rush served on the marine corps rifle team.

He became restless after the outbreak of war and re-enlisted in February, 1942, six months after his oldest boy, Harold, joined up. Two other sons, Donald H., 22, and Richard L., 19, followed him one year later.

Rush has three other children—a married daughter, Dorothy, and two boys—Ralph, 12, and Lloyd, 10, at home.

"I am very proud of my family," the sergeant said.

My oldest boy, Harold, and I were very close. We had worked together in civilian life on building construction. He served through the Guadalcanal campaign and was promoted to platoon sergeant.

They used to kid him and tell him he was the poorest shiner in the family because he had knocked off only two Japs. He was killed by a machine gun bullet on Cape Gloucester in New Britain while directing the fire of his platoon.

It was two days before he was to receive a battlefield commission.

"I couldn't believe it at first when I got the news. I had his picture out for a long time and then I couldn't stand it any more and had to put it away. I missed him more the longer he was gone."

Rush looked intently off across the oil-blue waters.

"I wish it had been me instead," he said. "It doesn't make so much difference what happens to you when you are as old as I am."

His son Richard was wounded on Iwo Jima and received a medical discharge. His other son in service, Corp. Donald, was wounded on Iwo Jima and is now stationed at the Philadelphia Navy yard.

"Donald and I for a time were stationed together at Parris Island, S. C., and talked then of walking down the streets of Tokyo together," Rush recalled.

He thought he would have a chance to revenge himself on the Japanese at Okinawa, but his captain held him to company headquarters area, figuring his sergeant was too enthusiastic for his own good.

And so this afternoon Rush stood eagerly on deck looking for his first glimpse of the Japanese coast.

"I feel my boys deserve to go in more than I do," he said wistfully. "Children are all a fellow has left to live for when he gets up in years. And all three of my boys sure would have liked to land on Japan. We sure could have had a swell reunion in Tokyo."

Besides making munitions and war goods, used fats are essential in many products needed on the home front. These include cotton sheets and pillow cases, rayon and cotton stockings, shoes, wax paper and lunch boxes, raincoats and vacuum cleaners, blankets and bandages, cough medicines and soothing salves. Used fat saved in kitchens contributes to the comfort of folks at home as well as those in the armed forces.

## EVENING GLAMOR OUT OF THE PAST

BY EPSIE KINARD  
NEA Staff Writer

NEW YORK — New fashions in evening gowns are out to whoop up your mood for masquerade, and will turn you in a twinkling into a Grecian column, a Minon lady or one of Louisa M. Alcott's "Little Women."

There are three "Greek column" dresses for instance, in one New York collection, and one is shown left, a Bruno-designed beauty with a draped one-shoulder bodice gathered to a short tunic and banded with delicately traced gold beading. In the same collection are sarong-dresses in Olympian red and black, highlighted by gold traced Grecian motifs, which are reminiscent of what Minon Greek ladies wore many centuries ago.

From museum pages come the idea for the simulated chain armor bodice on the dress, right, which is the result of Etta's researches in 13th century times. This "theme" dress of Cistercian white crepe upon which a series of designs has been adapted, has a long basque top that is smocked and pailletted in gold and is set on a low hipline skirt with a self sash.

Mrs. Gladys John, R. D. 3, Salem, has received this new address for her husband: Pvt. Roland L. John, 35862434, R-4-1, AGSRD 3, Fort Riley, Kan.

## Good Hostess Puts Guests At Ease

By ALICIA HART

Putting shy people at their ease is the social obligation of a hostess, or of the chairman who presides over a small chatty group. Possessing and freely using this social technique gives many a woman her rating as a successful hostess and wins many a club-woman the votes that make her the chairman.

Because no one is more successful at this technique than a woman radio commentator, whose job is to "draw out" program guests, I asked Nancy Craig—one of the smoothest at this sort of thing—to tell her secrets.

"I ask short, encouraging questions," says Nancy, who insists that if you'll tactfully query people about what work they do, what their home interests are and what hobby they pursue, not even the shyest soul will falter for an answer.

Rallying to her subject and encouraged by your interest, a timid person is easily coaxed into objective conversation. At that point, says Nancy, someone else will join the talk and you are free to move on where you can put someone else at ease.

# HOW SMART PEOPLE AND JACK BENNY LATCH ON TO THEIR MONEY

by Fred Allen

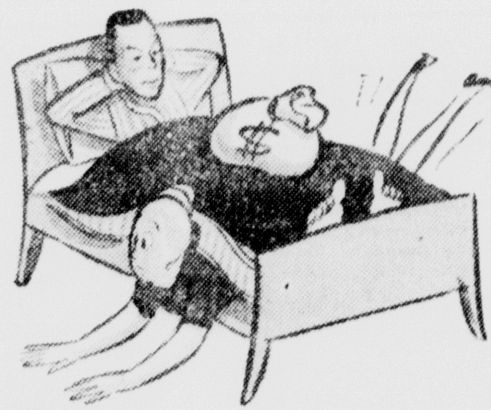

1. Smart people hang on to their money by buying War Bonds—and holding them. Jack Benny does, too. But don't let that stop you. Buy some anyway. All high-class people do this. For example, I do. Lowlifes like Benny imitate us upper-crust denizens by buying Bonds just so they can get their picture in the *Police Gazette*.

2. Among polite circles, it is no longer considered *de rigueur* to trip up the waiter or cash in your War Bonds. In these circles, in which Benny is considered a square, it is also deemed a trifle *gauche*—that's hog Latin for sloppy—to dunk your feet in the finger bowl. When Benny finds this out, he'll probably be so embarrassed he'll break down and start wearing shoes.

3. The boys coming back from Europe and Okinawa probably won't lope up to you breathlessly and dangle a medal around your neck for buying War Bonds, but you can bet your bottom Jap yen they won't give you the water cure, either. They know the importance of Bonds—they buy enough every month themselves to make Benny's toupee turn green.

4. The laziest way in the world to make extra money is to let those War Bonds accumulate interest. You get back 133% on your original investment in ten years. So let all your spare cash snooze away in War Bonds. If you *must* tuck something under your mattress, try your mother-in-law.

5. And don't think because your Aunt Crack-lthroat's tea leaves spelled "rat" last Sunday that the end of this war is in sight. It's not even within swooning distance. So make like Benny and pinch that penny. Or, as the farsighted zoo keeper said to the careless elephant keeper, "Till V-J day, hoard that hay!" Then, keep hoarding till the Bonds mature.

# Mullins Loses To G-F, Oils Beat Alliance, China Triumphs

## Youngstowners Down Salem As Sinclairs Whip Moose In Triple Bill At Stadium

More than 1,500 softball fans—supporting the Salem Boosters benefit at Reilly stadium last night—got about all the action and variety they could expect in three ball games as Sinclair defeated a tough Alliance Moose squad 1-0 and Mullins lost out in the final game 5-4 to a smooth-working General Fireproofing team from Youngstown.

The Leetonia Boosters lost 5-4 in two extra innings to the Salem China in an early game, tying up the third round race.

Variety came in every ball game, but the two crowning highlights of the evening were a triple play, started by Larry Russell of Alliance, and a "circus catch" of a fly ball in left field by Lee Schafer of Sinclairs.

Russell tagged a fly infield bunt near home plate, whirled to toes to first and double Dave Ritchie off the sack and then the throw went to Shortstop Hurford to catch Si Sidinger away from second to end the inning.

Schafer's catch was of a long fly ball in left field. He slipped just before the ball approached him, fell on his back, stabbed into the air with his gloved hand and made the catch.

More variety appeared in the Mullins-GF game. Ev. Birkholtz, hard-hitting third baseman, laid out a well-tagged liner over third that went for four easy bases.

Paul Stratton of Mullins fielded a foul away over beyond first and made a perfect throw to third to double Ev Birkholtz as he slid into Walt Brian's glove.

It was an action-packed evening and the fans went home well satisfied with their investment. Approximately \$250 was netted on the contest, all of which goes into the Booster club treasury.

Sinclair scored the lone and winning run of Mutt Schaeffer's 1-0 shut-out in the last half of the sixth inning. Schaeffer was in trouble many times, but some startling heads-up ball by the Oilers paid off in the end.

Schaeffer allowed five hits, his teammates made one error, and he passed three batters. He fanned four batters. Puhl, the Moose pitcher, fanned three, walked one and allowed the Oilers four hits.

Mullins had things the way they wanted them twice, but the white-clad visitors had the ability to come back and take over.

The G-F-ers scored once in the first and again in the second to take the lead, but Mullins, on a double to right center by Shorty Borton, picked up three runs in his half of the second to take the lead.

It was short-lived, however, the visitors coming back on Birkholtz's homer in the third to make it 3-all.

Mullins tied again in the fourth and led 4-3 as the fifth began, but another G-F tally knotted the count. The final run in the seventh made the margin and the Factorymen couldn't equal it.

Francis Lamey tossed for Salem, walking himself into trouble four times and fanning three G-F men. He allowed eight hits, but kept them fairly well scattered.

Bill Stables started for G-F, but only lasted a little more than two frames. He was replaced by Fred Larson. Mullins collected six hits, including a long double by Al Catlos. G-F's hurlers issued four walks, fanned three and the fielders gave up no errors.

Salem's outfit unquestionably lost the game, committing six errors in the seven-inning stretch.

## Salem A.C. To Battle Alliance Club

Salem's Athletics—seeking their ninth straight victory—will face the Alliance Athenian club at Centennial park at 2:30 p. m. tomorrow before what is expected to be the largest crowd of the season.

Scott Chisholm's Athletics have been victory hungry of late, ringing up eight straight wins, some of them over exceptionally stiff competition.

The Alliance Negro outfit brings a well-rounded, red-hot club with a record of 14 wins and six losses so far this season. They have been the only Alliance club able to defeat

Transue-Williams in city play this year a feat which Salem duplicated last week.

Salem will not use Frank "Lefty" Smith tomorrow as the Lisbonse has another commitment to the Wright File Co. team there.

In all probability, Alliance will use T. B. Boyens on the mound here tomorrow and Joe Babos behind the plate. Other pitchers, who also play in the outfield when not pitching, include Benny Holloway, Oscar Nickerson, Johnny Hollis and Willie Lowe.

At first will be Henry Gray,

## YANKEES IN FLAG RACE DESPITE A 'BOROWY' BLUNDER

Five Teams, However, Are In Money-Winning Race In American

By JACK HAND  
Associated Press Sports Writer

When the Yankees sold Hank Borowy to Chicago they supposedly kissed off their 1945 flag hopes, but here it is September first and the New Yorkers are only four games out of first place.

Before the ticket scalpers start trying to buy up the Yankee stadium, it might be well to note that five teams are in the running for the big dough.

With the exception of Washington, every club in Will Harridge's circuit gets a bang out of the Yankee revival. Detroit, because they can continue to hold first place while losing five of their last six as long as New York keeps on beating the Senators; Cleveland because they too get a chance to close in as does third place St. Louis.

Ossie Bluege's gentlemen can't help being impressed. Losing six in a row to an alleged second division also ran just when you're ready to step into first, can be a terrifying experience. Perhaps the Nats can recover in the remaining three games of the set with New York.

Ernie Bonham and Al Gettel teamed up on the Senators last night in a two-night doubleheader, Big Jumbo whipping them in the first tilt, 3-2 and Gettel following up with a 3-1 job in the finale.

Feller May Get Slic  
Bobby Feller hardly expected a World Series slice when he came out of the Navy to finish up the season with Cleveland, but anything goes this year. Rapid Robert goes again today against Hal Newhouser after Allie Reynolds beat the Bengals yesterday, 7-2 with the help of Felix Mackiewicz's three-run homer.

The Tigers now have lost their last four to the Tribe and have six more to go that may cost them the pennant.

St. Louis and Chicago were rained out of a game in the second inning, necessitating a two-night double tonight and Boston divided two with Philadelphia, the Red Sox bouncing back in the second 4-2 behind Randy Hefflin after Russ Christopher had topped a six-hit, 6-3, job with a home run in the opener.

Big news in the National league was the fourth successive decision the St. Louis Cards grabbed from their Chicago "cousins."

The distance from St. Louis to Chicago now is only three games with the Red Birds having a chance to go into a virtual tie for the lead by sweeping today's single and tomorrow's double at home.

Pittsburgh scored six times in the first two heats and held on to trim Cincinnati, 6-5, after Manager Frankie Frisch and Catcher Bill Skalkald had been thumbed off the field by Umpire Jocko Conkle.

The Phillies staged one of their rare rallies to shade Boston, 6-5 New York and Brooklyn were not scheduled.

**FIGHT RESULTS**  
NEW YORK—Vinnie Rossano, 151, Brooklyn, outpointed Johnny Lawer, Cleveland (8).

Priddy of West Jefferson, a veteran of the 1943 team and rated as one of the better line backers, soon might be discharged from military service and report for football duty.

But there is no debating its negative effect on baseball flesh. Even during the warm summer it is virtually impossible to enjoy proper training in the north, as proven by Greenberg, who did his training with the Tigers in Detroit.

Hank promptly came up with a set of barking dogs and an unwilling arm. Eager to aid the Bengals in their fight for the flag, he remained in the lineup and worked out his aches and pains in actual competition.

"Next year, with six weeks of good southern training, I will be the same player you saw in 1941," commented the slugger.

That statement will hold for many stars filtering back from the wars.

**Returning Vets Quick to Recapture Baseball Form**  
Performances of Ruffing, Greenberg, Lewis, Keller, Cheer Others Who Had Their Careers Interrupted by War

BY AL VERMEER  
NEW YORK — Charley Ruffing won four of his first starts since returning to big league baseball.

Henry Greenberg is steadily pounding his batting average up to its pre-war figure. Charley Keller has regained the home run touch. Buddy Lewis has given a punch to Washington's attack.

So, among them, they have exploded the belief that major league stars who shed their baseball tows for Army and Navy duds would be unable to recapture their form of three or four years ago.

Especially gratifying are the come-backs of Red Ruffing and Hank Greenberg. They are older players, beyond their best years, and they played little or no baseball during their time in the service. They returned to their clubs without the benefits of extensive training programs. And yet they show striking resemblance to the Ruffing and Greenberg who dropped out of the baseball picture in 1942.

Their performances have given renewed hopes to other players who found their careers interrupted. If Ruffing and Greenberg can come back with a flourish of success, then surely younger stars such as the DiMaggios, Reese, Reiser, Williams, Gordon, Chandler, etc., can come back in the same fashion.

And there is another factor in their favor. Next spring will find major league clubs returning to their normal training bases in Florida and California, where the penetrating spring sun does its best to bake out kinky arms and aging legs.

Northern training might have been all right in the emergency,

## Sport Chatter

BY HUGH FULLERTON, JR.

NEW YORK, Sept. 1.—This probably is the final report on wartime sports in Ireland, as Capt. Dave Zinkoff, the Island's indefatigable correspondent, is back home.

Zink, whose enthusiasm as assistant special service officer and whose vocal efforts as fight announcer, did a lot to keep G. I. sports enthusiasm at a high pitch, reports that most of the Americans have left Ireland but they left their sports behind.

"We sold Andrews field house to the Icelanders," he says, "and they're running monthly boxing shows. They hope to make it twice a month. They haven't taken up basketball much, but the sport that really caught on there was bowling."

You see the Red Cross put in two makeshift alleys in Reykjavik and two in Keflavik and they were in use 12 hours a day."

**THE BIG WIND**  
As for G. I. sports, Zink adds they're still playing softball up to 11 p. m., but it makes things difficult when a 130-mile wind springs up suddenly.

It was suggested the captain might make quite a yarn for the gullible home folks if he could invent an occasion when one of those winds rose while a pop fly was in the air.

"I don't have to invent," Dave replied with injured dignity. "It has been known to happen."

**SPORTS BEFORE YOUR EYES**  
One of the highlights of Sgt. Frank Parker's tennis tour of the Pacific was on his visit to Admiral Nimitz. Frank didn't play the admiral but he says he would have if invited.

"I wouldn't have to worry about winning," he explains. "I'm in the Army." Arthur Fheers, minor league promotion director, figures the Class "AA" leagues may have an easier time next season than the "D" circuits because the draft still is taking the 18-year-olds who might be starting pro baseball careers.

**Things Go Backwards**  
ST. LOUIS—The pitching staff of the St. Louis Cardinals is a bit of a puzzle to Manager Billy Southworth this season. The pre-season favorites, Wilks, Donnelly, Brecheen and Byrly, have turned in far less victories than anticipated, while Ken Burkhardt leads the staff.

## Tribe After Three Wins In Tigertown

DETROIT, Sept. 1.—Lou Boudreau's boys are planning to take the three-game Detroit Tigers series, and that comes straight from the Cleveland Indians' manager.

Shortly before the Tribe cooled the Bengals' pennant hopes by snatching a 7-2 victory from Paul Trout yesterday, Boudreau said:

"We're six games behind Detroit. If we win two out of three here, we'll gain one game, and be five behind. But if we win three, we'll gain three games—and be only three behind."

"The point is that we can't be satisfied with winning two. We want to win all three."

Today, Rapid Robert Feller takes the mound for his third appearance since his Navy discharge. Seeking revenge for an earlier loss to the fast speedball artist is Hal Newhouser with 21 victories against cubs' losses.

More than 12,498 fans watched the Indians tame the Tigers to pussy-cats as the Tribe notched their fifth straight win, bringing them to within five games of the league pacers.

Allie Reynolds posted his 15th win and his third triumph from the Tigers as he struck out six batters.

## Leetonia Loss Makes Four Team Tie In Force In "A" League's Third Round Race

Bound and determined to get into the playoffs, the Salem China put the hooks to Leetonia at Reilly field, 5-4 last night and did two other teams a favor by tying the third round Class A race four-ways.

By virtue of the Leetonia defeat, the Boosters are now knotted with five wins and two losses this round with the China, Recreation and Sinclair.

A round-robin playoff between the four outfits will be necessary next week, and should any team but Sinclair win the round title, another round robin between the first, second and third round champs will be needed before the "Little World Series" can settle just who is to be crowned champion.

Leetonia had the third round title in their pockets, but blew a two run lead in the last of the second extra inning to lose a sure title. Now they must battle it out all over again with the three contenders.

The China cashed in for the winning three markers in the final frame, the ninth, after Leetonia had scored two in the upper half to take the lead, 4-2.

The China collected only five hits from Don "Lefty" Herrold, but four costly errors spelled the margin for the Potters. Dale Ritchie, pitching his second game in two nights, held Leetonia to six hits and was put in a hole several times by four China errors, one of which he made himself in fielding a bunt.

## POSTWAR CIVILIAN PLANE DELIVERED, FIRST IN NATION

ALLIANCE, Sept. 1.—The first postwar civilian plane to roll from any American aviation plant assembly line was turned out and delivered this week by Taylorcraft Aviation division of Detroit Aircraft Products, Inc.

The plane, a side-by-side two seater, came off a 1,000-foot mass production line, a method of manufacture hitherto unused in peacetime aviation construction.

The BC-12-D model has 65 horse power, steering wheel controls, a cruising speed of 95 miles per hour and can land on a road strip.

The family plane is fitted with an extra gas tank for 500-mile trips and flies about 23 miles per gallon. It leaps off the ground in 350 feet and climbs 600 feet in the first minute aloft. Its sale price has been set at \$2,295, delivered at Alliance.

"Taylorcraft expects to deliver such a plane to every distributor according to seniority, inside of 60 days," said company President Nash Russ.

**Goal Is 5,000**

"Our ultimate goal is 5,000 planes a year. It is the aim of this company to produce a plane that will be within the reach of every family."

In less than three months we plan to employ two shifts of 1,000 workers each."

Taylorcraft is at present confining its production to the two-seater model because of its low cost and record of safe performance, the company president asserted.

Russ said more than 5,000 orders for the new plane from all over the world are in his office. Besides this country, they have come from Holland, Denmark, Australia, New Zealand, the Philippines, China and South America.

Taylorcraft planes were used extensively by the armed forces in all theaters of war for liaison and reconnaissance work.

## Legion Will Recruit Men Still In Armed Forces

WASHINGTON, Sept. 1.—The American Legion plans to recruit as members persons still in the armed services when President Truman proclaims V-J day.

At present the Legion does not enroll veterans until they receive honorable discharges. But when V-J day comes anyone in uniform will be eligible, National Commander Edward N. Scheiberling, Albany, N. Y., said yesterday.

He suggested also the organization become more aggressive politically.

The heating plant of the Mulberry school in California's Imperial Valley operates on the waters of a hot spring.

eral employees were sent home. They cited the company for "failure to conform with the provisions of the national agreement" and with a "deliberately calculated attempt to destroy and discredit the union."

B. N. MacFregor, Packard's general manager, said: "This strike, now affecting 3,000 employees, was preceded by a deliberately planned work stoppage Thursday afternoon which resulted in discharge of four employees and suspension of three other employees, who gave leadership to the stoppage."

**Non-Stoppage Agreement**

"Among other things the (General Motors-Union) agreement provides that the company will not lock-out employees, nor will the union engage or permit its members to engage in any strike or work stoppage."

Difficulties over wages, union security and recognition demands have resulted in continuance of Cleveland strikes at the Land Guarantee Title & Trust Co. and Cuyahoga Abstract Title & Trust Co. involving the AFL-title examiners union; the Murray Ohio Manufacturing Co. affecting the CIO-United Automobile Workers; the Parker Appliance Co. and the AFL machinist union; and the Steel Improvement Co. and the AFL-Blacksmiths union. Picket lines continued to turn away workers at the four concerns.

At Akron, the CIO-United Rubber Workers and the Goodyear Tire & Rubber Co., recently returned to private operation after navy seizure July 5 when more than 16,700 workers were involved in an 18-day strike, hoped to discuss and settle sit-downs and dismissals.

## Annual Inspection Held At Willow Grove Grange

County Deputy Norman Barnett was in charge of the annual inspection of Willow Grove grange last evening. Mr. Knox of the Youngstown Christ Mission talked and showed pictures.

The program also included songs by a quartet composed of Mr. and Mrs. Frank Fritz, Mrs. John Stewart and Fritz Frederick, readings by Mr. and Mrs. Virgil Edgerly and Mr. and Mrs. Ralph Crawford, a stunt by Mrs. Leslie Hoopes and piano selections by Jerry Myers.

The next meeting will be held Sept. 14 at the grange hall.

## Eagles Re-appoint Brown As National Organizer

SPRINGFIELD, Sept. 1.—M. L. Brown, of Springfield, national managing organizer of the Fraternal Order of Eagles, today was re-appointed to a four-year term by the board of trustees. The Eagles magazine staff also was reorganized with Brown as business manager.

## Corn Shocker Machine Is Invented by Lima Farmer

LIMA, Aug. 31.—A corn shocker machine, invented by E. H. Rehn of Lima, is on display at the Aug. 31 county fair in Wapakoneta. The device, when attached to a binder, shocks the corn and piles the shocks along the edge of the field, leaving it clean, Rehn said.

## Passengers Stare As American Rides Through Jap Land

YOKOSUKA, Sept. 1.—It is no more pleasant riding the Japanese trains now than it is those in America.

The looks of the other passengers make me wonder what an unarmed American in uniform is doing all alone among so many people who only a few days ago were bitter enemies.

A former ricksha boy—of 72 years—was obtained in Yokohama to guide me to Yokosuka by train, since there was no army vehicle going that way.

Joe—which is as good a name for him as any—led me to a street car line where we waited for a street car to come along jammed full.

All around me were civilians and soldiers in uniform—all of them Japanese. I had a queer feeling about what they must be thinking as the car went past block after block which had been completely ruined by our firebombs.

Joe was cheerful and paid no attention to the ruins. At the railroad station he helped me purchase a ticket. While we waited other trains came and discharged passengers. They stared at my khaki uniform.

**Jap Soldiers Stare**

It was a relief to have the train come in—until I found the coach filled with returning—and staring—soldiers.

As I left the Yokosuka station, a military policeman stopped me and said: "I'm sorry, but don't you know you are not allowed to be out alone without carrying side arms?"

From Yokohama to Yokosuka is a strange contrast of peace and war, where farmers bend over their crops in the field and soldiers of the emperor's army still carry their rifles and swords.

In the 20 miles from Yokosuka to Yokohama, I saw no sign of American attacks. It is in Yokohama you see the results of the support raids.

I rode in a truck with American soldiers through village after village and saw thousands of Japanese civilians and soldiers. Some mothers ran with their children into the house as they saw us coming. Others watched us without emotion.

In many places Japanese soldiers with rifles stood guard beside fortifications.

VIENNA, Sept. 1.—The Americans assumed administrative control of six of Vienna's 21 districts today, Gen. Mark W. Clark announced.

At present there are about 6,000 American troops in Vienna, including service units and military police. The American force is expected to be increased to 10,000.

**Ft. Steuben Hotel Sued**  
COLUMBUS, Sept. 1.—The Office of Price Administration yesterday filed a suit in federal court, seeking \$24,296.73 in treble damages from the Steubenville Hotel Co., doing business as the Fort Steuben hotel at Steubenville, on a charge of ceiling price violations on food and beverages totaling \$8,098.91.

## The World Today

(Continued from Page 1)

stead of a beast, he could have made his country one of the leaders in peace and good will.

So the nature of the Japanese can be changed, but the task will be tremendous because of the very fact that they are a primitive folk. If it could be done by force, it would be easy. But use of the big stick would not turn the trick for the effect would remain only so long as they still smarted from the hiding. The change must be achieved by education.

We have made a favorable start. The Japanese respect the Allies because the nation for the first time realizes our military superiority. What we have to do now is give them an exemplification of western civilization and democracy that will make them want to copy us. That's the main task of the forces of occupation, as I see it.

This doesn't preclude punishment and housecleaning, but it does call for an attitude which was so well shown yesterday when the Fourth U. S. Marine regiment raised the flag over the Yokosuka base on Tokyo bay. As the Stars and Stripes went up, Brig. Gen. William T. Clement said:

"May the raising of this flag over Japan point the way to a just and everlasting peace."

The Tokyo government plans to reopen all schools and colleges throughout the country by Sept. 15. This affects some 10,000,000 young folk, and I suspect that it's in this young generation that our main hopes of lasting peace rest. It will be for the Allies to work out the program whereby we can place before them the ideals of peace-loving democracies.

## Hollenden Hotel Facing \$95,213 Damage Action

CLEVELAND, Sept. 1.—Hollenden hotel operators today faced a \$95,213.35 treble-damage suit filed by the OPA.

Walter J. Heddeshimer, acting district OPA enforcement attorney, termed the suit the first ever brought by a government agency against a large commercial hotel, and said the amount demanded is the largest ever sought for alleged violation of rent control regulations.

The suit, filed against the hotel's operators, all residents of Chicago, alleges between September, 1944, when the present operators assumed control, and July, 1945, the Hollenden charged rates in excess of the base-period rentals frozen as of the 30 days ending July 1, 1942.

## TO SPEARHEAD JAP OCCUPATION

FIRST AMERICAN OCCUPATION FORCES to land in Japan will be under the command of Col. John H. Lackey, Jr. (left), Norfolk, Va. As troop carrier commander, Lackey will lead forces of experts who will make arrangements for later mass landings. Piloting the first U. S. Army transport expected to land in Japan will be Capt. testimony would wind up the public hearings as far as he was concerned.

A desire to hear more witnesses qualified to analyze "the mechanics" of the bill was expressed, however, by Senator Taft (R-Ohio).

The so-called "full employment" measure would require the President to submit annual "job budgets" estimating the size of the labor force and how nearly prospective spending and investment would provide the jobs needed.

**Taft Fears Inflation**  
If the jobs in sight were deemed insufficient, congress would take steps to promote private activity and, as a last resort, would embark on a public works program.

Taft said he felt the bill contained inflationary possibilities. Heavy federal spending might work for a year or so, he said, but might lead only to depression. He asserted inaccuracies in the job budget might cause overspending.

He added he was trying to work out amendments to eliminate his objections.

## Halsey Abandons Saddle; Hasn't Seen White Horse

YOKOSUKA, Japan, Sept. 1.—Left behind on shipboard as Adm. Halsey came ashore on this newly occupied allied naval base, was his saddle—the gift from Reno, Nev., presented him in event he rides Emperor Hirohito's white horse.

Presumably, Emperor Hirohito's horse remains in the imperial stables; and Halsey has not gone near them.

ATHENS, Sept. 1.—U. S. Rep. Robert Jones (R-Ohio), and other members of a house subcommittee on appropriations, arrived here yesterday.

**Changes Schedule For World Series**  
CHARLOTTE, N. C., Sept. 1.—Baseball Commissioner Chandler said here today the coming world series would be played on a different schedule from that followed in other years, opening with three games in one city instead of two as heretofore.

Chandler said the 1945 series would open with three games at the home lot of the American League winner. The next three games will be scheduled for the home town of the National League champion. In the past, the series was usually two and three.

**No Treasury Statement**  
WASHINGTON, Sept. 1.—Beginning today, the treasury will not issue its daily condition statement on Saturdays. This is in line with the new 40-hour week for government employees.

There also will be no statement Monday, Labor day.

All Credit to the Man at the Wheel — — —  
For the Nation's High Production Record!

Without the brawn and sweat of the men and women who have labored in America's war plants, our military, naval and air successes would never have been possible with the speed they have been realized. This is truly a Labor Day on which the working men and women of the country can be proud of their service to the cause of freedom.

## Salem, Proud of War Record, Turns to Production for Peace

In this area, as elsewhere in the nation, workers toiled loyally and long over machines to forge the sinews of war. They gave their best in backing up our fighting fronts with home-front production.

The disciplined forces of organized labor have fought magnificently for the cause of free enterprise and for the dignity, happiness and security of the workingman.

We salute American Labor for its courage in upholding and carrying forward the ideals of men toward a better world of tomorrow.
